DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12 and 16-19, drawn to a spray ring.

Group II, claim(s) 13-15, drawn to a method of wetting char.

Group III, claim(s) 20, drawn to a distribution box.

2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I claims a spray ring with a loop conduit for feeding a wetting fluid through a plurality of holes, whereas Groups II and III do not contain this special technical feature.

Group II claims a process comprising a reactor which comprises a spray ring situated above a water bath which circulates wetting fluid, whereas Groups I and III does not contain this special technical feature.

Group III contains a distribution box with an access port in a wall part opposite one of the supply conduits essentially aligned with a supply conduit, whereas Groups I and II do not contain this special technical feature.

3. A telephone call was made to Eugene Montalvo on 2/18/2010 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
